

SJ-500BF Automatic Powder Automatic Packaging Machine

Performance characteristics:

1. The machine adopts advanced full computer touch screen operation, man-machine interface, and the operation is simple and convenient. Internationally renowned brand PLC control system, equipped with imported electrical components, can automatically complete bag making, metering, filling, filling, sealing, slitting, counting, coding, and can be customized according to customer requirements.
2. Intelligent photoelectric control device ensures the integrity of the packaging bag making pattern. The pull bag adopts servo drive motor control and color mark positioning, which has stable performance, convenient adjustment and accurate detection.
3. Filling metering configuration servo drive motor, programmable automatic control, large torque, stable operation, accurate measurement.
4. This machine has a back seal packaging form. The cutter can be used in one of three ways: flat knife, serrated, and dotted line.
5. Advanced design to ensure that the machine is suitable for different industries in the use of adjustment, operation, maintenance are very convenient. It can be used together with various automatic metering equipment at home and abroad.

The scope of application:

Food, medicine, chemical industry, etc. Such as packaging flour, seasoning powder, additives, coffee powder and other powdery materials.

Packaging materials: polyester/polyethylene, polyester aluminized polyethylene, polyester aluminum foil polyethylene, paper polyethylene, nylon and other heat sealable composite materials.

Technical parameters:

型号	SJ-500BF
制成袋长mm	150-550
制成袋宽mm	120-290
包装薄膜宽度mm	260-610
包装容量ml	250-5000
包装速度bags/min	15-30
功率Kw	4.4
电压V	220
气压mpa	0.6
整机重量Kg	1200
外形尺寸mm	1820×1180×2600
