

Locating and Tracking Screw Cap Machine

This function is suitable for a variety of geometric shape of the container, with a manipulator, cover speed, no back cover. The machine is suitable for three screw caps and some special bottle caps.

Main Parameters:

1. External dimensions of the host (length x width x height): 2000mm x 1200mm x 2000mm
2. Weight: about 1100kg
3. Apply to container size: diameter: Φ 30 mm - 110 mm Φ ; Height: 50 mm to 250 mm
4. Apply lid specification: height: 10 mm ~ 35 mm diameter: Φ 18 mm ~ 80 mm Φ
5. Power supply: 380V (three-phase four-wire) 50Hz
6. Overall power: 3kw (8.5kw for the whole pipeline)
7. Gas source: 0.6mpa, clean and stable
8. Number of rotating heads: 1
9. Production capacity: 3000 bottles/hour
