

Automatic Sealing Machine KW-KX600

- The entire operation process must be completed in a stable state, with sufficient reliable positioning and protection measures, and shall not cause damage or damage to the pointing;
- The sealing is smooth and beautiful, and the operation is stable and reliable;
- There is an operation screen interface for independent debugging and production control of single machine, and has digital and text display and prompts such as production count, machine running speed and equipment failure. It also has safety protection functions such as fault alarm, fault shutdown and emergency shutdown. (optional)
- Carton size change can be easily and accurately adjusted by hand wheel.

Technical parameters:

Applicable carton range	L(max) 600mm-(min) 200mm
	W(max) 500mm-(min) 160mm
	H(max) 600mm-(min) 200mm
Sealing function	Common specification carton up to 720 cases / hour
power supply	Single-phase 220V 50HZ
Origin	50kg/m ³ 50L/min
Mechanical Dimensions	1830*835*1640mm
Machine weight	250kg
