

## Blister Packaging Machine DPP-80/110/150/250

Blister Packing Machine is a device to make products into a blister pack. The blister pack is several types of pre-formed plastic packaging used for small consumer goods, foods, and pharmaceuticals such as tablet blister pack, pill blister pack, capsule blister packing, and soft gel capsule blister pack. The primary component of a blister pack is a cavity or pocket made from a formable web, usually a thermoformed plastic. This usually has a backing of paperboard or a lidding seal of aluminum foil or plastic. Here we mainly introduce blister packing machines used in pharma blister packaging and food industries.

Joysun capsule blister machine is widely used in hospital dosage room, laboratory institute, health care product, middle-small pharmacy factory. Our blister sealing machine is of compact design only needing a small room space; easy operation by only pressing buttons is enough; PVC board length convenient adjusting; stable working performance and long service life.

Model	DPP-80	DPP-110	DPP-150	DPP-250
Cutting times/min	10-33	10-40	10-40	10-50
Capacity strip/hour	1980	1980	7200	9600
Max shaping size	130x90x15mm	130x100x15mm	140x120x26mm	270x150x26mm
PVC hard pieces	0.25-0.5*130mm	0.25-0.5*130mm	0.15-0.5*140mm	0.15-0.5*250mm
PTP Alu Foil/mm	0.02-0.035*130	0.02-0.035*130	0.02-0.035*140	0.02-0.035*250
Air Pressure Mpa	0.4-0.6			
Air Compressed	≥ 0.3m <sup>3</sup> /min			
Main motor power	0.75kw	0.75kw	1.1Kw	1.5kw
Cooling of Mold	Tap water or Recycling water			
Noise (dBA)	< 75dBA			
Net Weight Kg	450	530	820	1400

<b>Overall Size mm</b>	1840*590*1100	1700*650*1450	2500*800*1780	3000*730*1600
