

FRS-202 Counting Machine

FRS-202 template counting berating machine with vibrating and rotating function passed CE Certification and ISO up to GMP Standard

Description

Template Counting Machine sorts and counts grains through several templates, then spins medicines to let them enter filling channel for bottling. This machine is made up of material disk, several templates, swing mechanism, discharging mechanism and control system. The whole machine adopts totally-enclosed structure design, Plc system operation, and many protective devices are also installed.

Applications:

Wide application but need different templates, can count tablets, capsules, soft capsules (transparent, opaque), pill count to bottling.

Specifications:

Model Name	FRS-202
Application	Filled capsules(000-5#)
	Soft Gelatin capsule
	tablet
	other solid object under machine range
Capacity	10000 pcs/min
Filling Quantity	8-9999(adjustable)
Bottle Size	Diameter:30-75 mm
	Height:40-250 mm
Counting Size	Thickness:3-10 mm
	Diameter:3-15 mm
	Length:3-25 mm
Compressed Air	0.4 Mpa
Machine Weight	450kg
