

Sleeve Labeling Machine

The Sleeve Labeling Machine is equipped with advanced process, which has longer service life for use and there is no special need of maintaining. Made of sufficient materials and undergoes strict quality control, it realizes the function to ensure high and reliable performance. Unlike traditional multi-arm mechanisms, the replacement of any transmission belt can be completed quickly.

The bracket does not need to be replaced and adjusted at all. We only tickle the machine, so it can automatically move to the homepage search location. Before similar products, it is safer and more convenient. There is no doubt that it can be an ideal facility used for water, beverages, food, daily necessities, pharmacy, etc.

Product specification:

Production Speed (b / hour)	5000-30000
Voltage (v)	220
Applicable bottle diameter range (mm)	Φ38-Φ120
Applicable label length (mm)	30 ~ 220
Applicable label thickness (mm)	0.03 ~ 0.13
Applicable paper tube diameter (mm)	5" ~ 10" free adjustment
Dimensions (mm)	2400L*1000W*2100H
Weight (kg)	400
Label deviation (mm)	±2
