

Semi-Automatic Spray Pump Cap Capping Machine XLSGJ-6100

Electrical control movement, stability, a positioning device, capping standard, easy to operation, lock cover wide range of different shapes sizes lockable caps, solve the nozzle, pump head, spray pumps, hand gun spin button cover difficult problem, capping speed is adjustable.

The tightness of the cap is adjustable.

For a variety of cosmetic, pharmaceutical, chemical industry, nozzle, pump head, spray pumps, hand gun caps lock button cover machinery.

Features

1. Electrical control movement, stability.
2. A positioning device, capping standard, easy to operate.
3. Lock over wide range of different shapes sizes lockable caps.
4. Solve the nozzle, pump head, spray pumps, hand gun spin button cover difficult problem.
5. Capping Speed Adjustable.
6. Can be adjusted depending on the tightness of the cap.
7. For a variety of cosmetic, pharmaceutical, chemical industry, nozzle, pump head, spray pumps, hand gun caps lock button cover machinery.

Parameter Date

Model	XLSGJ-6100
Cap Diameter:	Dia.15-65mm
Suitable bottle height:	30-330mm
Power Supply:	AC220V/50HZ
Capping Speed:	20-45 bottles/min
Power:	90W
Air suace Pressure:	0.4-0.6Mpa
Net Weight:	30KG
Package size:	600X450X600mm
