

FM-5540 Heat Shrink Packaging Machine

It can be widely used in single, collective or combined packaging of food, beverage, medicine, daily chemical, hardware, wood products, stationery, printing products, plastic products, glass products, electronic components and other products. It can continuous working and suitable for PP PVC POF film shrink packaging.

Technical Parameters:

Model	FM-5540
Voltage	220V/50-60HZ
Power	4KW
Max.packing size(mm)	540L*390W*290H
Temp. Range	0-300°C
Packing speed	500-800pcs/h
Max.sealing size	550*400mm
Machine Size(mm)	1400L*730W*1450H
Weight	128KG
Sealing cutting time	0-3S
Shrinking time	0-30S
