

## WF Series Universal Grinder

The machine is suitable for grinding dry brittle materials in the pharmaceutical industry, chemical industry, food industry, agricultural industry, grain industry and other industries.

### Brief Introduction

The machine has simple structure, stable operation, low noise and good grinding effect. The ground materials are discharged from the grinding chamber. The granule size can be achieved by selecting screen with different mesh sizes.

### Technical Parameter

Model	WF-18	WF-20	WF-30	WF-40
Capacity (kg/h)	20-21	20-150	30-300	40-800
Granule feeding size(mm)	4	6	10	12
Grinding fineness(mesh)	12-120	12-120	12-120	12-120
Weight(kg)	75	250	320	550
Rotating speed(rpm)	5350	4500	3800	3400
Total power(kw)	2.2	4	7.5	11
Machine dimension(m)	0.60x0.40x1.05	0.55x0.60x1.25	0.50x0.70x1.45	0.80x0.90x1.55
