

## Semi-Auto Capping Machine – CE-QDX-1S

The capping machine is based on the international advanced models to improve the design, quick capping speed, high pass rate and convenient operation.

- Cap according to the characteristics and requirements of the design speed, with automatic production line.
- Machine consists of three parts: automatic management cover, automatic drop caps, automatic cap.
- Can be designed according to the number of capping heads.

### Technical Parameter:

Model	CE-QDX-1S
