

Automatic Small Bottle Eye Drop Liquid Dosing Filling Machine

This machine is the use of Germany's advanced technology, the company engineering and technical personnel and other self-developed specifically for the eye-drop liquid or e-liquid filling stoppering capping design, filling parts of the machine adopt peristaltic pump filling, PLC control, filling high precision, easy to adjust the filling range, stopper and cap part adopt manipulator capping part use magnetic moment capping sealing, sealing beautiful thread, seal firmly. The machine design is reasonable, stable and reliable, easy to operate and maintain, in full compliance with GMP requirements, in addition to this equipment Have bottle no filling function with my company for the washer, washing machine, tunnel sterilization oven, light inspection machine, labeling machine and so on production line linkage.

Features:

1. The setting of the microcomputer, the load precision, convenient operation.
2. The filling system can be customized to suction function, no drop leak.
3. Using manipulator automatic brush, spiral cover.
4. Automatic stop function, for any orbital consecutive without filling, automatic stop without cover.
5. The part which touches the liquid medicine is made of 316L stainless material completely, meeting the requirement of GMP.
6. The machine is easy to install and we provide abroad service .

Parameters:

Filling Volume	2-30ml customize
Output	30-50BPM
Filling Precision	$\leq\pm 1\%$
Power Supply	380V/50Hz
Capping Rate	$\geq 99\%$
Stoppering rate	$\geq 99\%$
Air Supply	1.3 m ³ /h 0.4-0.8Mpa
Power	2.0 kw
Weight	550 kg
Dimension	1800*1000*1500mm
