

## *RGPL-1580A Tube Filling and Sealing, Cartoning Line*

This production line combined by Rigao tube filling & sealing machine and cartoning machine, the entire process composed of functions of automatic tube feeding, eye mark orientation, filling, hot melt, sealing, coding, trimming and automatic inserting tubes and leaflets into the box.

Tube feeding by pneumatic with high accuracy.

The product contact parts is made of stainless steel 316L, which is clean and fully meets the requirements of GMP standard.

### **Technical Parameters:**

Tube Diameter	Φ10- 50 mm
Filling volume range	5-250 ml
Capacity(Tubes/h)	1800-4800tube/h
Tube Length	60 - 230 mm
Tank capacity	40 L
