

HG Auto High Speed Horizontal Shrink Sleeve Applicator (HHS Series)

INFORMATION

1. Specially designed for small product in tube shape, suitable for cap, body and overall packaging.
2. Incredibly linear high speed: 120 bottles per minute, the highest speed among Taiwan suppliers.
3. Sleeving is precise and stable even in super high speed motion.
4. Simple and elegant design of machine structure minimizes the possibility of trouble and makes maintenance convenient.
5. Whole machine body is made of SUS304, elegant in appearance, compact in construction, solid and durable in use.
6. Equipped with semi-auto feeding hopper as option for high speed production.
7. Equipped with HMI, providing easy operation.
8. Work with horizontal electric tunnel for perfect packaging.

SPECIFICATION

		機 型 Model	HHS-1150
MACHINE 主 機	長×寬×高(mm) Dimension(L x W x H)		1550*1660*1600
	重 量 weight		1000kg
	電 源 Electric Power		3Φ 220V.380V
	速 度 Speed		120 BPM
CONTAINER 容 器	直 徑 Diameter		Φ8-25mm
	高 度 Height		25-180mm
	材 質 Material		玻璃、金屬、塑膠 Glass, Metal, Plastic
	形 狀 Shape		圓、方形 Round, Square
SHRINK SLEEVE 收 縮 膜 材	材 質 Material		PVC, PET, OPS, PLA
	厚 度 Thickness		0.035-0.08mm
	長 度 Length		Max 190mm
	膜料紙管內徑 Inner diameter of sleeve roll		3"~5"
