

## Shrink Label Insert Machine XYL-200

### Description:

- Single machine structure ensures change over
- Simple & quick structure of label unwinds for time saving and ensures the operation safety.
- Driver delivery design to cooperate with synchronous feeding mechanism can improve the accuracy of label inserting.
- Completely function of interface touch controller for user-friendly operation
- To meet customize inserting requirement by offering various accessory with the machine.
- Machine design can fit the label height up to 300mm and above.

### Specification:

| Model                    | XYL-200                     |
|--------------------------|-----------------------------|
| Power source             | 3P/220V~415V                |
| Production rate          | 200 BPM(label length 100mm) |
| Range of bottle diameter | Ø25 ~ Ø125                  |
| Label insertion length   | 25mm ~ 220mm                |
| Range of label thickness | 0.035mm ~ 0.08mm            |
| Material                 | PVC, PET, OPS               |
| Total Power              | 4KW                         |
| Machine dimension(L×W×H) | 900 × 860 × 2100mm          |
