

VXW-24 Fully Automatic Exterior Bottle Rinsing Machine

VXW-24 Fully Automatic Exterior Bottle Rinsing Machine is special designed for preserved bean curd and its related industry. It is a newly developed type which has the advantages such as: wash bottle mouth, rinse the exterior part of bottle, hot water spray, heat wind to dry, etc. there is no leak drip during the rinsing process. Especially for the second opening bottle of preserved bean curd industry. It avoids the second pollution during the traditional rinsing method. Improve the products sanitary standard grade, reduce labor and improve the working efficiency.

Main Performance parameter:

Number of rinsing heads	24
Number of brush	4 groups
Hot water pump	3 T/hour lifting 10 meters (hot water can use steam or electricity)
Air pump	90m ³ /hour, power:2.2kw
Production capacity	5000b/h (both square and round bottle can be available)
Power	2.2 kw
Power supply	380V ; 50Hz
Weight	1200 kg
Outline dimension (L×W×H)	2000mm×1850mm×1900mm
