

Sleeve Labeling Machines SLM-150D

Sleeve Labeling Machines (SLM-150D):

double head sleeve labeling machine In order to meet the needs of markets at home and abroad, our company has researched and developed double head mechanism to meet the requirements of casting label for casting label for bottle mouth and bottle body.

shrink sleeve labeling machine Advantages:

The machine can be used in two ways. It not only reduces a trapping label machine. but also saves the cost for customers.

It reduces the length of conveying line or avoids the secondary transportation, so that it increase the production efficiency and the floor areas of equipment.

It reduces the length of conveying line or avoids the secondary transportation, so that it increases the quality of product.

Electrical Appliance Configuration Specification:

It adopts equivalent PLC, positioning module, servo motor and frequency converter. Besides, its touch screen is featured with a humanized operation.

Varieties for Casting Label:

With the accurate casting label, the equipment applies to the cantina label and sealing for bottles with various shapes and hexagonal oil drum. Suitable for large bottle-type (3-5liters barrel containers). The products are sold in quantity to the domestic and overseas markets.

Model	SLM-150D
Input Power	4KW
Input Voltage	ϕ 3380/220VAC
Production Efficiency	2*150(bottles/min)
Sizeof HostMachine	3200Lx1200Wx2070H
ApplicableDiameterof Bottle Body	28mm~125
Applicable Length of Label	30mm~250mm
Applicable Thickness of Label	0.03mm~0.13mm
ApplicableInternal Diameterof PaperTube	5"~10"
