

SFXG-200K Microcomputer Control Semi-auto Capping Machine

Feature:

- The machine is controlled by a PLC with digital indication, which is directly legible.
- The touch screen with buttons is easy to operate with high sensitivity.
- The height of its capping mechanism is easy to adjust using a hand wheel.
- The bottle positioning mechanism controlled pneumatically and electrically is easy to operate.
- Its adjustable capping torque effectively protects caps from damage by

Application:

- SFXG-200K is applicable to round flat caps of round and square bottles.

Technical:

ITEMS	SFXG-200K
Power	AC220 50/60Z 60W
Air pressure	0.4-0.6Mpa
Capping height	50-300mm
Capping speed	0-40Bottle/min
Locking range	20-50mm 4-8kgf/cm
Host size	525×460×720mm
Packing size	615×460×720mm
Weight	42kg
