

WHIII-LB150 Automatic Triangular Packing Machine

Main Parameters:

- It adopts photoelectrical eye controlling system.
- It has high accuracy to cut and seal.
- The products have a novelty pattern of triangular
- It has advanced technology; all kinds of objection can be packed in one bag.
- It is suitable for packing granular, piece and liquid etc, such as inflating food, shrimp, peanut, popcorn, corn meal, melon seeds, jelly, sugar and salt, juice and powder etc.

Specifications:

MODEL	WHIII-LB150
Bag Length (Mm)	50-150
Bag Width (Mm)	40-100
Packing Film Width (Mm)	100-220
Capacity (Bag/Min)	30-60
Volume (Ml)	5-100ML
Power (Kw/V)	1.6
Air (MPA)	0.65
Air Consumption (L/MIN)	100
Size (L×W×H) (Mm)	840*1100*1760
Weight (Kg)	320
