

## *Semi-auto Box Sealing Machine PL-H100/200*

Box sealing machine is designed for improving box image and sealing efficiency. Machine adopts advanced electric and pneumatic components, SIEMENS PLC control system, etc.

Characteristic: easy operation, stable performance, high efficiency and labor-saving.

### **Classification:**

- a. adjust box sealing machine
- b. fixed box sealing machine

### **Features:**

1. 30 to 55 box per minute, generally, 5 to 10 times faster than manual (decided by box size and labor qualification)
2. Perfect sealing effectiveness: no deformation but upright, no wiredrawing but neatness.
3. Gluing uniformity, save half glue cost than manual.
4. Compared with manual sealing, save 2 to 6 labor to finish same production in the same time. (decided by box size and labor qualification)
5. World reliable famous brand components guarantee machine quality and performance.
6. Small in volume, and removable.

**Technical Parameter:**

| <b>Model</b>        | <b>PL-H100 (fixed type)</b> | <b>PL-H200 (adjust type)</b>  |
|---------------------|-----------------------------|-------------------------------|
| Capacity            | 30-55                       | 30-55                         |
| Adjust size (L*W*H) | unadjustable                | (90-300)×(60-160)×(23-130) mm |
| Weight              | 90kg                        | 180kg                         |
| Dimension (L*W*H)   | 850*650*1150 mm             | 950*1100*1200                 |
| Air Pressure        | 0.4-0.8 Mpa                 | 0.4-0.8 Mpa                   |
| Power               | 3 kw                        | 3 kw                          |
| Voltage             | 220v/380v                   | 220v/380v                     |
