

HC-6W Bottle Cap Elevator

HC-6W bottle cap elevator is special used for transportation cap form low to the higher place of screw capping machine's hopper. It is an auxiliary equipment of cap folding machine, cut machine, plastic drop machine. Can improve productivity.

Technical parameters:

Productivity: 50000/hour

Power: 0.25KW

Bottle cap height of lift: 2.2m

Contour dimensions: 650x1050x1980mm

Machine Weight: 0.4T

Voltage: 1AC/N/PE 220V/50Hz 230V/50Hz
