

Flow Packaging Machine TH-250

Suitable for the solid object with regular form. Such as biscuit, bread, sweet, commodities and industrial parts and so on. The bulk cargos is put in a box and form a regular object, then to be packed.

Structure function:

- 1: Touching controller with person-machine interface, parameter enacted quickly, high speed and high efficiency
- 2: Adopting the tracing technology through photo electricity, with digital input and sealing and cutting position nicely.
- 3: Diagnosing the troublesome and indicating to give an alarm.
- 4: Constant-temperature adjusting, brainpower controlling and being suitable for all kinds of packaging materials.
- 5: Controlled by Double frequency conversion, the bag length can be cut with the enacting To finish by one step, saving time and saving film.

Parameter:

Model	THB-250	THB-320
Film Width	Max 250mm	110--320mm
Bag Length	65-190mm, 120-280mm	80-230mm, 100-300mm
Products Height	5-40mm	5-40mm
Roller film diameter	Max 320mm	Max 320mm
Packing Speed	40-230 bag per minutes	40-280 bag per minutes
Power	220v, 50hz, 2.5kw	220v, 50hz, 2.8kw
Machine size	3800x670x1450mm	4000x900x1500mm
Weight	800kg	800kg
Remark	date coder option	date coder option
