

## ***SP-19 Coffee Bag With Ear Packing Machine***

This machine can use for tea leaf, health tea, coffee and other small particles inside and outside the bag disposable packaging.

### **Features:**

Outer paper was controlled by stepper motor, bag length stability, accurate positioning.

Temperature adjustment using PID control, temperature control more accurate;

Using machine control operation of the PLC, HMI display, easy to operate;

All accessible materials are made of SUS304 stainless steel to ensure the health and reliability of the product;

Part of the work cylinder using imported parts, to ensure that accurate and stable work.

The machine attached device can complete the functions of flat cutting, date printing, easy tearing and so on.

### **Technical Parameters:**

Seal way	Three side heat seal
Measurement range	1-15g/bag (customized)
Production capacity	30-60bag/min
Inner bag size	L 50—75mm; W 50—90mm (customized)
Outer bag size	L 85—120mm; W 75—100mm (customized)
Width of bag with ear is 180mm	Bag size: L 90xW 75mm
Aluminum composite film width 200mm	Bag size: W 100x120mm
Input power	220V/50HZ single phase
Total power	3.7kw
Total Weight	450KG
Dimension	1200x900x1900 (L*W*Hmm)
