

(sample package)

The **FD22** are automatic machines for the production of suppositories and ovules in strips of aluminium and/or thermoformable plastic. The cavities can be of different cut and volume according to the client's requirements. Production up to 22.000 suppositories-ovules/hour.

Packing materials (PVC; PVC + PE; PVC + PVDC + PE; duplex (ALU + PE); triplex (PP + ALU + PE))

FD22	
Production	22000 Unit/hour
Maximum power absorbed	12 kW
Electrical infeed	400V 3p+N+PE
Compressed air pressure	1200 Lit/min
Pneumatic energy	6 bar
Length	5700 mm
Width	1045 mm
Height	2025 mm
Weight	1830 Kg
