

Pillow Horizontal Packing Machine without Tiding System RX320

Characteristics:

1. High precision photoelectric eyes control follow-up, exact seal position.
2. Mail control circuit takes use of single chip and transducer to control drive, well interface for easy operation.
3. Independently control seal temperature, fit for various packing materials with nice and firm seal.

Technical parameters:

Model	RX320
	Pillow horizontal packing machine without tiding system
Bag size	L65-160mm, W35-100mm, H5-35mm
Packing speed	35-220bags/min
Total power	3kw
Dimension	4000x920x1600mm
Products	Biscuit, bread, moon cake, candy, medicine, ordinary pappy boxes or salver and solid regulated materials
