

## *Automatic Granule Packing Machine XY-60BZ*

This machine is suitable for small bag vacuum packing of powders like tea leaf, rice, cooked food, melon seeds, meddler, bitter buckwheat, areca-nut, Pu'er tea etc.

### **Features:**

1. Roll film is automatically formed, well vacuum efficiency. Convenient maintain, easy operation. Save 50% repairing cost, 20% packing material cost is saved, high stability. Vacuum and anti-vacuum can be switched casually, one machine with multiple function.
2. Seal form: Back seal.
3. Automatically finish bag making, measuring, blanking, sealing, dividing, and counting. It also can be equipped with printing batch number unit according to clients' needs.
4. Blanking is operated by electronic scales or measuring cup. (depend on material character)
5. Use advanced micro-computer controller, bag length is controlled by stepper motor. Stable performance, convenient debugging, accurate testing.
6. Temperature error range is controlled below 1 degree by PID adjusting.

### **Suitable packing material:**

Polypropylene (PP), Polyethylene&Aluminum foil, Polyethylene&Polyester, Aluminizing, Polyethylene&Nylon, Enhanced Polyethylene&paper, Polyethylene etc..

**Technical data:**

<b>Model</b>	<b>XY-60BZ</b>
	L:30-180mm
	W:30-140mm
Measuring Scope	30-150ml
Power	220V/50HZ/1.9KW
Packing Speed	30-80 bag/min
Dimensions(L*W*H)	900*950*1700 mm
Weight	400kg
