

Wine Glass Bottle Steam Shrink Tunnel XH-S2000

Use steam heat shrink tunnel to apply pre-cut sleeve label shrink on the wine glass bottle. The labeling position is from the neck to the bottom. Shrink effect is merely nice and neat without any wrinkle or folds. This line is also equipped with the water steam dryer which helps wipe the vapor or steam off the wine bottle in order to keep the bottle as dry as possible for the carton packaging process.

Technical Parameters:

Model	XH-S2000
Label Type	PVC/PET/OPS/PE/PLA shrinkable label
Heat Shrink Type	Water Vaporous Steam Heat
Steam Source	Electric/Diesel boiler or Generator
Product Shape	Round/Oval/Flat/Square/Triangle/Rectangular, etc.
Product Material	PET, PP, PE, HDPE, Glass, Metal etc.
Product Dimension	ϕ : Max 150mm H : Max 350mm(customizable)
Label Thickness	0.025mm ~ 0.13mm
Machine Material	SUS 304
Main Machine Size	2000L*500W*2100H(mm)
Power	AC 3P 380/220V 50/60Hz 0.75KW
