

Round bottle Labeling machine TBJ-200

This is one of the perfect labeling machines with sound quality. The machine supply a labeling solution applied to round shape of plastic and glass bottles in packaging of pharmaceutical, foodstuff, chemical and cosmetics. The latest advanced technologies adapted to this equipment ensure the speed and accurate work stably.

Structure & Function:

- PLC and touch screen control system makes operation easy.
- Servo motor and photoelectric component ensures the work accurate.
- Maximum 50 series of parameter data can be stored in computer.
- A printing device can be assembled to the back-end of the labeling.
- Auto-pause and alarm set will activate when the label used out or broke off.
- Completely comply to GMP standard.

Parameters:

Model No.	Extreme Speed	Diameter of Bottle (mm)	Electricity Supply	Power	Air Pressure	Size of Shape(mm)
TBJ-200	300(bottle/min)	φ16-φ120	AC220V 50/60Hz	0.75KW	0.5-0.7MPa	2500x1100x1650
