

Bowl Type Conveyor

Bowl Type Conveyor is used for noodles, mixing products, the bowl structure make it easier to put all the products into the bowl and lift to packing machine.

Bowl Type Conveyor is often more expensive than normal conveyor, but if needed all one-time drop products to set in one place, then Bowl Type Conveyor is the choice.

Conveyor

1. No damage to material, easy to clean
2. Adjusting the transmission speed according to customers' demand and easy to accommodate other equipment
3. Upscale appearance, compact structure, easy operation and maintenance
4. Almost no damage to the products, operating area free from contamination

Technical Specification

- Production capacity: 4-6.5 m³/h (20m-30m/min)
- Convey height: 3520mm (adjustable)
- Scraping belt width: 300mm
- Flapper height: 100mm
- Machine structure: #304 stainless steel or carbon steel
- Overall belt width: 400mm
- Power Supply: AC 220V Single phase / 380v, 3 phase, 50 Hz, 1.1 kw
- Packing dimension: 6090*660*650mmH
- Gross weight: 600KG
