

Semi-Auto L-Type Sealer Machine – CE-5045L/HL

CE series semiautomatic L-seal cutting machine can convey the products automatically into shrink tunnel through conveying belt for shrink packaging after sealing & cutting.

Equipped with shrink tunnel to reach higher working capacity.

Features:

1. There is protection mechanism for sealing knife against overheating and cutting.
2. Adopt nano-fibre cutter holder and anti-sticking thermostable nichrome cutter for sealing & cutting to ensure good sealing without cracking or coking.
3. After sealing action, packing product goes in the shrink tunnel automatically by the conveyor belt.
4. The height of conveyor belt can be adjusted with handwheel.
5. Sealing & cutting time is controlled by time relay accurately.
6. Double electromagnets are used to produce more pressure for sealing, which will make sealing much firmer.
7. Sliding film support can keep all kinds of shrink films, up to 550mm in width.
8. Upper sealing & cutting frame is controlled by return cylinder.
9. CE-5045LA/HL adopt pneumatic device.

Application:

1. CE series semiautomatic L-seal cutting machine is suitable for shrink packing electronic products, hardware, software, foodstuff, printing, pharmacy, floor, ceramics etc in small amount.
2. Applied to all kinds of packing materials, such as PVC, POF, PP.

Technical Parameter:

Model	CE-5045L/HL	CE-5045LA/HL
Voltage	220v / 50Hz	
Compressed air (kg/cm³)	–	6-8
Power (kw)	1.2	
Packing speed (pcs/hour)	800-1200	
Max packing size (L x W x H) mm	450 x 400 x 200	
Max sealing & cutting size (L x H)	500 x 450	
External dimension (L x W x H) mm	1560 x 757 x 1040	
Net weight (kg)	125	135
