

External Type Vacuum Packing Machine CE-800T/VS

CE Desktop electric inflator outside pumping vacuum packing machine, vacuum can be inflated with a suction seal, direct sealing, inflatable seal three functions, it is a versatile machine, bag sealing size not more than 80cm to the outer vacuum machine no volume space restrictions, using a wide range. This machine is easy to operate, energy, fast, low-cost, easy maintenance, and can be used for food, medicine, native products, electrical appliances, department stores and other extraction industries, inflatable packaging items.

Technical Parameter:

Model	CE-800T/VS
Brand	FULLWELL
Working table size	800×400mm
Sealing bar size	800*10mm
Vacuum pump	20m ³ /h pump
Vacuum speed	5.5L/S
Motor power	0.75KW
Sealing power	0.8KW
Max.pressure of air compressor	0.8Mpa
Pressure of solenoid valve	1.7-7.0Kgf/cm ²
Pressure of cylinder	0.4-0.63Mpa
Dimension	860×500×1000mm
Net Weight	830KGS
Options	Gas flush, Busch pump, Other voltages available
