

JTB-L Vertical Dryless Glue Labeling Machine

Purpose and brief

The function complete oral liquid bottle, vial or other types of self-adhesive label round the bottle. Reference thermal printer head printing batch number; PLC full control, touch screen set parameters; and whether the bottle not to sign, automatic fault alarm functions. Local interference is strong, stable and reliable performance.

Main technique parameters

Production capacity: 60 ~ 240 bottles / min
Applicable specifications: round bottle affixed week
Labeling rate: $\geq 99.5\%$
Power supply: 220V 50Hz
Power: 0.6Kw
Dimensions: 1800x900x1400
