

XF-ZS Automatic Sleeve Shrink Packing Machine

- The machine will finish the process of piling, wrapping, shrinking and cooling automatically.
- The machine adopts the Germany advanced technology which is based on European standard.
- The electrical units are from famous companies around the world, such as OMRON, SICK, NORGEN, MITSUBISHI and so on.
- The packed products are neat compact and suitable for long distance and long time transport.
- The packages can be of 6 bottles, 9 bottles, 12 bottles, 15 bottles, 18 bottles, 20 bottles and 24 bottles. Also the packages can be with tray or without tray.
- It is suitable for products like pop-tops, plastic bottles, glass bottles and so on.
- The machine can provide counting device, full-column automatic shrink tunnel.

Technical Parameter:

Name	Sealing machine	Shrink tunnel
Horizontal height and length of infeed conveyer	850±50mm/1500mm	850±50mm
Max Packing Dimension	L700×W300×H300	L(unlimited)×W600×H400
Packing Speed	10-18pcs/min	0-12m/miute
Power supply	3φ/220V/380V 50/60Hz 2KW	3φ/220V/380V 50/60Hz 20KW
Air Tolerance	0.6Mpa(6Kg/cm ²)	
Sealing Time and Temperature	0.5-1.5S/0-250°C	0-250°C
Film Width/Thickness	MA×650mm/0.04-0.12mm	
Dimension	L1500×W2700×H2000	L3000×W970×H1400
Weight	465kg	550kg
