

Model DXDC15 Tea bag packing machine

Tea bag packing machine Model DXDC15 is our new model, and features filling, heat sealing, threading, labeling and over-wrapping functions. Meanwhile, it also has an adjustable loading system for filling different size tea bags. Adopting sealing pads in place of the sealing rollers used in machines of previous generations, this new system greatly improves the machine's flexibility and enables use of different packaging materials. Tea bag with overwrap and an individual overwrap will add appeal and value to your tea line. These tea bags include both a string and tag. No staples are used. This model is similar with our model DXDC8IV, but we enlarge the content of filter tea bag and envelope.

Main materials include paper / PE, plastic / Foil / PE and plastic / PE.
