YX-SL25 *Semi Automatic Syringe Labeling Machine*

YX-SL25 Semi Automatic Syringe Labeling Machine characteristics:

Suitable for all kinds of cylindrical objects labeling, small taper round bottle labeling, such as cosmetics round bottles, wine bottles and so on. Can achieve full week / half weeks labeling, front and back labeling circumference, is back mark pitch can be adjusted. Widely used in food, cosmetics, chemical, pharmaceutical and other industries. Optional functions choose improve production management convenience, with labeling counting, power-saving mode, photoelectric tracking label and other functions, production management easier. Optional features and components:

- Hot coding function.
- Circumference circumferential positioning function.
- Reader : read the bar codes in various kinds.
- Electric light sensor : the common sensor cannot detect the transparent label, which requires the light sensor device imported from Germany.
- Printing machine : printing the texts on the label.
- Date coding : hot coding for shelf date, products series etc.
- Bird view of whole syringe labeling machine.

YX-SL25	
Accuracy	±0.5mm
Speed	15~25bpm
Diameter	Ø 15mm~Ø 150mm
Label size	length: 20mm~200mm ; width: 20mm~220mm ;
Dimension	L920mm×W470mm×H500mm
Supply power	220V/50HZ ;
N.W	45Kg
Inner diameter of label	Ø76mm
Outer diameter of label	Ø 240mm
Voltage	220V-240V/50-60HZ
