

CBF1-420/520/680 VFFS Machine Four Side Seal Bag Series

Description

- 4-side seale is a particularly qualitative and cost-effective packaging option.
- Design is customized to customer requirements and product-specifically, even with this type of pouch.
- High efficiency of our pouch packaging machines is shown by a perfect result with an extremely low reject rate.
- More uniform appearance and greater product protection can be achieved with the 4 side seal pouch.
- Enormous efficiency and the low material loss create economic and ecological packaging.

Outstanding Features

- Packing material uses film roll directly instead of premade bag, decrease the package cost and make the packing process simpler
- Can add the zip-lock insert device, zip-lock design is good for bag preservation
- Easy tear notch, convenient for opening bag film pulling by servo motor, film position accurate and moving smoothly
- Controlled by PLC microcomputer, working stable and easy to operate
