

PM-20 Pill Making Machine

PM-20 pill making machine has compact and optimized overall design and features of efficient and convenient pill making.

Features:

- Strip output and medicine strip directly go into the rubbing wheel mold avoiding the broken strip and take manual action.
- Stepless frequency converter, speed control and safe operation.
- Touch control panel, microcomputer control, one machine multi-function, simple control panel and simple operation.

Technical Parameters:

Capacity	20-45kg/g
Power	3.7KW
Adjustable speed	0-50RPM
Motor speed	1400RPH
Pill sizes	2.5, 3, 4, 5, 6, 7, 8, 9, 10, 12mm
Voltage	220V
Dimensions	880x680x880mm
Weight	210kg
