

## ***WP-CF Automatic Cover Folding And Sealing Machine***

### **Feature:**

- ◎ The machine is manufactured using international advanced technologies. Parts, electric elements, and pneumatic elements are imported.
- ◎ Width and height can be manually adjusted according to carton specifications.
- ◎ The top cover of the carton is automatically folded and the top and bottom covers of the carton are automatically stuck with tapes in a quick, smooth and good-looking way.
- ◎ The machine is installed with a blade protection device to avoid stabbing during operation.
- ◎ The machine can be operated independently or work with an automatic packaging line.
