

HB 40B Specialized Shrink-Wrapping Machine

HB 40B is a specialized shrink-wrapping machine for bundle packaging which meets GMP compliant design through servo motor driven system. Instead of applying heat-shrinkage tunnel, products are gently wrapped through hot-wind system. This high level of technology offers remarkable performance and reliability as end-of-line packaging.

Features

- PLC control system and HMI touch screen
- Balcony construction for separating mechanical part from operation part
- Servo driven system
- Hot-wind system
- Fully automatic in-line with downstream machine or stand-alone operation
- Fast & easy format changeover
- GMP compliant design
- Available for 21 CFR Part 11

Specification

Model	HB 40B
output	16 rpm
carton/bundle size	A: 60 - 300 mm
	B: 45 - 200 mm
	C: 150 - 400 mm
PE film	T: 40 - 60 (μ m)
	W: 40 - 600 mm
