

XG-3 Rotary Capping Machine

Exclusively used in threaded plastic caps automatically feeding, Sorting, caps dropping and capping process.

- Screw cap automatically vertical grasping, screw cap, cover stable and reliable, no inclined cover.
- Magnetic torque screw cap, adjustable torque, screw cap qualified rate is high.
- Rolling cover selection of two knife rolling thread, two knife sealing, blade quenching treatment, durable; The seal and screw the lines are beautiful and unified.
- Continuous bottle walking, into the bottle, no bottles stuck, bottles inverted phenomenon.
- Rotary operation mechanism, higher efficiency, centralized lubrication system, stable and reliable.
- PLC control system, no bottle cover, front and back machine connection protection system.

Technical Parameters

Model	XG-3
Capacity	50-200BPM
Voltage and power	220V/50HZ 2 kw
Main material of equipment	SS304
Control system	PLC
The compressed air	0.6 Mpa
Size	2000×1100×1600mm
Weight	2000kg
