

MIC Tea Bag Filling Machine

Tea bag filling machines stand as epitomes of innovation, boasting a plethora of distinctive characteristics. These machines are engineered with high-grade materials, ensuring durability and longevity. Their modular design facilitates easy customization, accommodating diverse tea blends and bag sizes. Precise weight control mechanisms guarantee consistent filling, maintaining the quality and flavor integrity of every tea bag. Moreover, these machines often incorporate user-friendly interfaces, enhancing operational efficiency and minimizing downtime.

Product Applications:

The applications of tea bag filling machines are as diverse as the tea blends they handle. From traditional loose leaf teas to herbal infusions and aromatic blends, these machines cater to a wide spectrum of tea varieties. Ideal for both small-scale artisanal producers and large-scale tea manufacturing plants, these machines streamline the packaging process, ensuring uniformity and enhancing the visual appeal of the final product. Restaurants, cafes, and retail outlets also benefit from the efficiency of these machines, meeting the demands of tea enthusiasts worldwide.

Parameter

Capacity	20- 40 bags/min
Range of measurement	1- 100 G
Bag size	(L) 20-160 (W) 20-100mm
Sealing Type	Back sealing
Power	1180W
Total power	380V/50HZ 220V/50-60HZ
Packing material	Paper/the polyethylene, nylon/polyethylene, tea filter paper, etc
Net weight	2 60kg
Overall dimensions	(L) 800*(W) 800*(H) 1800
