

Automatic Compact Piston Pump Lotion Cosmetic Serum Liquid Detergent Fabric Softner Filling Machinery

Main Feature

- ▶ Compact machine body saves working space and production cost, it is suitable for small scale production
- ▶ Different filling range can be chosen according to production needs
- ▶ Multiple filling heads can be customized according to production need
- ▶ Can be connected with tabletop capping and labeling machine to finish complete packaging production
- ▶ Can be customized with mixer or heater for the filling material pretreatment, improves production quality
- ▶ Equipped with touch screen control panel, this makes machine operation and debugging more convenient and intuitive.

Parameter

- Voltage: 220V/110V 50-60Hz
- Power: 400W
- Filling Head: 2 Heads(Can be customized)
- Filling Range: 5-100ml/10-300ml/50-500ml/100-1000ml/500-3000ml/1000-5000ml
- Filling Speed: 10-30 bottles/min(dependent on bottle size and liquid)
- Filling Heads Diameter: OD 10mm(Can choose other sizes)
- Filling Accuracy: $\leq \pm 1\%$
- Air Pressure: 0.4-0.6Mpa
- Machine Size: 127*103*120cm
- Machine Weight: About 112kg
