

SUNHAN

SH-FS006U Automatic Piston Pump Hand Cream Toothpaste Cosmetic Cream Plastic Aluminum Soft Tube Filling And Sealing Machine

Main Feature

- ▶ Machine can finish tube feeding, paste filling and ultrasonic sealing automatically.
- ▶ Filling is controlled by piston pump, it's suitable for filling paste or viscous liquid like toothpaste, hand cream, etc.

Parameter

- Voltage: 220V/110V 50-60Hz
- Power: 4.5kW
- Working Speed: About 20-30 pcs/min (depending on filling materials and tube size)
- Filling Pump: Piston Pump
- Filling Range: 20ml-300ml (customized)
- Filling Accuracy: $\pm 1\%$
- Sealing Method: Ultrasonic Sealing
- Ultrasonic Power: 2.6kW
- Suitable Tubes: Plastic tubes or aluminum-plastic tubes
- Tube Size: Length: 50mm-250mm; Diameter: $\Phi 16\text{mm}$ - $\Phi 50\text{mm}$
- Air Pressure: 0.5-0.8Mpa
- Machine Size: About 1200*800*1500mm/ 47.2*31.5*59.1 inch
- Machine Weight: About 220kg
