

QDX-450 Semi Automatic Desktop Pneumatic Screw Capping Machine for Plastic Glass Metal Bottle

The QDX-450 Semi Automatic Desktop Pneumatic screw capping machine is an expertly engineered solution for stable sealing and high reliability. It provides a professional, low-cost packaging choice for businesses needing consistent results in a compact form. Advanced Pneumatic Performance Driven by high-quality pneumatic components, this screw capper ensures consistent torque for a secure seal every time. The QDX-450 Semi Automatic Desktop Pneumatic screw capping machine utilizes safe low-voltage control and offers flexible settings to easily adapt to various production needs.

Universal Compatibility The QDX-450 Semi Automatic Desktop Pneumatic screw capping machine is remarkably versatile for round bottle caps. It is the ideal equipment for glass, plastic, or metal containers in the drug, health product, chemical, and cosmetic industries.

Technical Parameters

Model	QDX-450
Voltage	220V 50-60HZ
Air Pressure	0.6-0.8 mpa
Power	100W
Work Method	Pneumatic Lifting & motor capping
Machine Type	Desktop
Capping Speed	20-40 Bottles / min
Bottle High	40-200mm
Bottle Diameter	10-50mm
