

YZG-II High-speed ampoule silk-screen glaze printer

The machine combines advantages of printing lines both from home and abroad. It is especially fit for glaze-printing of 1 ml, 2ml, 5ml, 10ml, 20ml and non-standard ampoules in horizontal or vertical ampoule production.

Clear characters, brilliant glaze, firm firing and bright color satisfy the requirements for Ampoule printing.

Features:

- Automatic bottle setting and printing
- Automatic raising knife in empty bottle positions and firing glaze

Technical Parameters:
