

BT1000 – Rotary Bottle Feeding Table

The BT1000 is a rotary bottle feeding table designed to provide stable and continuous feeding of empty containers at the beginning of production lines.

Engineered for reliable operation and smooth product flow, the system supports efficient bottle handling and controlled feeding into downstream packaging equipment.

Features

- Rotary bottle feeding table design
- Constructed entirely from AISI 304 stainless steel
- 1000 mm table diameter
- Integrated geared motor drive system
- Adjustable rotation speed via speed control system
- Stainless steel guide barriers
- Stable and continuous empty bottle feeding
- Suitable for integration at the beginning of production lines
- Compact and durable industrial design

Technical Specifications

Dimensions (L x W x H)	900 x 900 x 1100 mm
Weight	120 kg
Power Supply	1 Phase / 220 V / 50-60 Hz
Installed Power	0,37 kW
