

SED-1KJ-F Automatic Coffee Capsule Filling Machine

This fully automatic coffee capsule filling machine provides automatic feeding of aluminum cup, screw accurate metering and filling of coffee powder, other gas feeding (preserved), automatic adsorption and fit of stickers, hot pressing of stickers, automatic discharging of finished products, and high output.

Detailed Parameters

Product Name	Rotary coffee capsule filling and sealing machine
Material	stainless steel
Voltage:	220VAC+5%/50Hz
Power	1.5 Kw
Output	15-20 pcs/min
Weight	≤400kg
Ground load	>300kg/M ²
Compressed air	0.5~0.7MPa, 70L/min
