

GPW-06 Online Automatic Film Winding Machine

Online winding packaging machine is a packaging machinery suitable for assembly line operations, which is very suitable for the automatic packaging needs of modern enterprises. It plays a very positive role in improving packaging efficiency, reducing labor intensity, and effectively utilizing human resources. Can be matched with an automatic laminating machine to achieve all-round wrapping. Widely used in packaging lines in industries such as chemical, electronics, food, beverage, and papermaking.

Product Features:

- Adopting PLC programmable controller and human-machine dialogue touch screen;
- Unmanned operation of automatic feeding, film loading, winding, film cutting, film pasting, and discharging;
- Automatic warning, automatic fault alarm, etc;
- Simple operation, stable performance, and durability.

Technical Parameters

主要技术参数 Main Technical parameters

机器型号	Model	GPW—06
电源/功率	Motor power	380V 50/60HZ 2.5KW
最大包装物	Biggest packging	L1200*W1100*H1800mm
承重	Bearing	2000kg
转盘直径	Diameter of the turn table	1600mm
转盘转速	Speed of turntable	0—14转/分
包装速度	Speed of package	约30托/小时
机器尺寸	Overall dimension	2900*2500*2700mm
