

Automatic Plastic Film Sealing Machine

This machine can be lock of different specifications of the bottle cap shape. Such as nozzle, pump head, spray pump, hand button spray gun screw cap, etc.

Performance & Feature

1. PLC control, simple operation, convenient.
2. Four colleagues filling, high yield.
3. Defaming, sneak into the filling, no foaming, no splashing liquid.
4. An outer cover, special mold, high qualified rate, not to hurt the inner plug and an outer cover.

Technical Parameter

Power	0.5kW / 220V
Capping Speed	20-50 bottle / min
Air Source Pressure	0.4-0.8MPa
Cap Diameter	Φ10-180mm
Range of Bottle Height	50-300mm
Net Weight	180KG
Dimension	3000 × 750 × 1500mm
