CM-617 Vacuum Packing Machine (Twin Chamber Type)

Two independent vacuum chambers, to increase capacity.

Twin Chamber Type to save the Time!

This model has two independent vacuum chambers, while the vacuum chamber is placed on the package while the vacuum chamber on the other side is being vacuum packed, so the packing speed is doubled.

Applications

●Suitable for computer parts or engineering products plants, food processing plants, laboratories, restaurants, butchers etc.
●For powder, grain products packing, such as coffee, powder, yeast, powdered milk, count powder, beans, rice etc.
●For liquid foodstuffs sealing, such as pickled vegetables etc.
