

CM-40T Carton Erector

Case equipment is used to erect, pack, seal, or unpack cases of products. In most instances, case equipment is used to form cardboard boxes; however, corrugated materials and plastics formers are also available. Types of case equipment include case erectors, case cartoners, carton packers, carton sealers, and unpackers.

Technical Parameters:

Model	CM-40T
Power supply	380V \pm 10%/50Hz /2.5KW(Three-phase four-wire system)
Air pressure	4-6kg/cm ²
Working speed	40cases/min
Case Size	Custom-made
Sealing specification	Custom-made
Sealing type	Kraft paper or BOPP tape
Electric adoptions	Adopt TAIWAN "CPG" or "ONG LI" motor
Worktable height	100-1200mm
Outside dimension	L4150 x W1530 x H2000mm
Transport packing size	L4250 x W1630 x H2100mm(14.55M ³)
Machine weight	650kg
